Playin on my other acc.

pretty good game tbh, nice graphics and atmosphere.. I'm not usually a huge fan of platformers, but I picked this up on a whim.

I have to say, I was really impressed!

I love puzzle games, and the puzzles in this were surprisingly good! The visuals are cute and varied, the story is simple but emotional (I got teary eyed by the end), and new mechanics are introduced periodically to keep the gameplay fresh.

A good deal at \$10, my complements to the devs!. One of the best puzzle platformer games I have ever played. The new mechanics that were introduced in the second chapter are really fun. Totally love the artwork. Definitely recommend 9/10. Excellent indie puzzle platformer with charming art, unique characters and challenging puzzles. Very polished from start to finish!. Good story, cool puzzles and a solid 4-hour adventure. Nice work!. This game has beautiful and cute graphics. We get to see a new world that is slightly magical. The music and voice work is also nice. The game play is simple and easy to understand. You need to move stones, chew ropes, and jump in the right directions to travel on your path. Some of the puzzles are harder than others, and we get some variety in the puzzles as well.
